

Education Committee vacancies

Are you passionate about echo education and professional development, committed to promoting the highest standards of care and keen to support our members to deliver high quality echo services? The British Society of Echocardiography is looking for volunteers to join our Education Committee to help us plan and deliver core educational events and online learning and support the production of clinical guidelines.

Echocardiography is practiced by an ever increasing range of specialists situated in diverse settings and the BSE is keen for all of its committees to represent its members as widely as possible. We therefore encourage applications from all specialities and members with all types of BSE accreditations.

The Committee meets four times a year either face to face or virtually. Members will be asked to lead on projects and will need to meet agreed timelines, we would therefore encourage you to consider how you would allocate time to work on a project.

The BSE Education Committee is responsible for:

- Ensuring our educational events and online learning are relevant, up to date and accessible
- Developing educational resources which meet the needs of all members
- Ensuring our guidelines are evidence based and reviewed regularly
- Proactively share and develop knowledge, expertise and best practice

We are committed to treating all people equally, with respect and without discrimination. We are looking for Committee members who can uphold our organisational values in their work, including being:

- Passionate about excellence in echo
- Professional, transparent and ethical
- Member-driven, collaborative and inclusive

Interested members should complete the attached expression of interest form and send together with a copy of their CV to events@bsecho.org.

Full membership of the BSE is required. **The closing date is Monday 15 June 2026.**
